Dear Hiring Manager,

I am writing to express my interest in the Data Analyst position, or any similar roles within your esteemed organization. With a Master's degree in Data Analytics from the University of Central Florida and experience at **Cognizant Technology Solutions**, I am confident in my ability to contribute effectively to your team.

At Cognizant, I led data pre-processing efforts, executed complex SQL queries, and generated customized reports. My proficiency in tools such as **Python, SQL, and Tableau**, combined with my Agile collaboration skills, enables me to manage and analyze large datasets efficiently. During my internships at **KPMG** HealthCare and Heavy Alloy Penetrating Project, I turned complex data into actionable insights and enhanced data accuracy using Python, Tableau and Excel.

I possess strong technical skills, including Python, SQL, Power BI, Tableau, and various statistical tools. My certifications in **Google Data Analytics** & **Microsoft Power BI** further highlight my commitment to continuous learning and professional development. I am eager to leverage my expertise in data analysis and visualization to drive meaningful business outcomes.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experiences can benefit your organization. Please contact me at 762-477-3171 or gowthammani024@gmail.com to schedule an interview.

Sincerely,
Gowtham Mani
